

Step 1: Create a MySQL database.

Server: localhost

Database: attendance

Username: root

Password: [blank]

Step 2: Use the following SQL to create the tables.

```
CREATE TABLE `user` (  
    `id` int NOT NULL,  
    `fullname` text NOT NULL,  
    `email` text NOT NULL,  
    `role` text NOT NULL,  
    `class` text NOT NULL,  
    PRIMARY KEY (id)  
);  
  
CREATE TABLE `class` (  
    `id` int NOT NULL AUTO_INCREMENT,  
    `name` text NOT NULL,  
    PRIMARY KEY (id)  
);  
  
CREATE TABLE `attendance` (  
    `studentid` int NOT NULL,  
    `classid` int NOT NULL,  
    `session` int NOT NULL,  
    `ispresent` int NOT NULL  
);
```
